

CS 440 Meeting Minutes

Group 24 Date: November 12, 2020

Time: 19:00 Duration: 30mins

Present, on time: Milind Kurma, Luke Kim, Punit Malpani, Sharmisha Parvathaneni

Present, not on time: None

Absent: None

Synopsis:

We decided to revise our project code before demonstration. We discussed and distributed our work for testing of our project. We discussed ideas on how to give our coding project final demonstrations.

Recent Accomplishments:

Luke worked on the small functionality improvements in the advanced search and worked on the testing the user signup page, user login page, and URL security.

Milind & Sharmisha worked on testing and inspection of the plant health prediction feature. Sharmisha worked on the user input image refinement.

Punit helped Luke in making small modifications in the advance search query and has done testing and inspection of the basic search and advance search pages.

Current Individual Activities:

Luke will revise code for user signup page and make sure details entered by user are valid. Also, make sure user does not get access to any hidden information by modifying URL and also make sure all the work in other branches is merged into master branch.

Milind & Punit will work on testing the ML model and make sure prediction results are accurate.

Sharmisha will resize input image and restrict uploading file size greater than a certain limit.

Individual Action items:

Luke: Revise code for basic search feature and merge the other branches work into master

Punit: Test out basic and advance search thoroughly for corner cases.

Sharmisha: Test out plant Doctor feature and refine user input image in terms of image height, width, and file size.

Milind: Work on testing the ML model and make sure prediction results are accurate.
